CubIT allows you to:

Upload content to the Cube
You can do this via our website http://cubit.thecube.qut.edu.au or our mobile application.

Share content with other users
Using our simple drag and drop system, it’s like physically pulling files.

Present your content
Take advantage of the Cube’s huge projection spaces. Drag your content up for all to see.
How do I create a presentation?

1. Login to the CubIT website
   http://cubit.thecube.qut.edu.au

2. Go to the presentations section

3. Create a new presentation
   Select presentation, give it a name and click ‘Create Presentation’

4. Add content
   Select ‘Add’ to add any of your CubIT content to the presentation. CubIT saves your presentation each time you add new content.

Managing your presentations
You can add or remove content from your presentations by selecting ‘Manage’. You cannot reorder presentations on the web interface. To do so, visit CubIT on the wall. Delete presentations by selecting ‘Delete’.
How do I upload content?

1. Login to the CubIT website
   http://cubit.thecube.qut.edu.au

2. Pick an upload type
   Accepted file types:
   Images: JPG, GIF and PNG
   Video: MOV, OGG, MP4, MPEG

3. Choose a file
   If you are uploading an image or video, you will need to choose the file you want to upload and give it a name.

4. Upload
   The file will now become part of your available content!
How do I use CubIT?

1. **Sign up for an account**
   Visit http://cubit.thecube.qut.edu.au to sign up. Be sure to have your QUT staff or student card ready!

2. **Upload your content**
   Use either the website or mobile application to put your content into CubIT.

3. **Swipe and use**
   Swipe your QUT card at the CubIT wall to use your content. When you’re done, simply swipe again to log out.
